FROM

F. P. DIXON, ESQ., I.C.S.,

SECRETARY TO THE BOARD OF REVENUE,

EASTERN BENGAL AND ASSAM,

To

THE SECRETARY TO THE GOVERNMENT OF EASTERN BENGAL AND ASSAM, REVENUE DEPARTMENT.

LAND REVENUE
(*Miscellaneous*).

Dated Dacca, the 23rd November 1911.

SIR,

I AM directed to submit the report on the Land Revenue administration of the plains districts of the Province of Eastern Bengal and Assam for the revenue year 1910-1911.

The Hon'ble Mr. P. C. LYON, C.S.I., I.C.S., *Member in Charge.*

2. The dates on which the Divisional reports were received at Dacca by the Board are noted below :—

Dacca Division, 15th September to 26th September 1911.

Chittagong Division, 11th September to 29th September 1911.

Rajshahi Division, 7th September 1911.

Surma Valley Districts, 4th September to 12th September 1911.

Assam Valley Districts, 15th August to 1st September 1911.

The only report which was received on the due date was that for the Assam Valley Districts. There was considerable delay in the receipt of the reports for the Dacca and Chittagong Divisions, which has not been adequately explained. The matter is under the further consideration of the Board.

SECTION I.

GENERAL CONDITIONS OF THE YEAR.

3. The general conditions of the year were on the whole favourable to cultivation. The rainfall in most of the districts of the Province was heavier than in the previous year. In the Dacca Division the floods of July and August caused some damage to the summer crops, to jute and to the winter rice, while excessive rain in October diminished the outturn of the *rabi* crop. In the Chittagong Division the winter paddy yielded a bumper crop, but the floods injured the autumn rice and jute in Tippera. The winter rice was a bumper crop in most of the districts of the Rajshahi Division also, although the outturn of the summer crops was not very good. In Malda, the season was favourable to mulberry and a sixteen-anna mango crop was obtained. In the Surma Valley, some damage was done to the winter rice crop in Cachar by insect pests, but the average outturn was not affected. The winter rice crop is reported to have yielded a splendid harvest in Sylhet. The early autumn and broad-cast winter rice crops in parts of the Assam Valley were adversely affected by the local floods of July and August, while the transplanted winter rice crop suffered in some cases from drought in September and October. The winter rice was specially good in Goalpara and Lakhimpur.

Weather and crops.

The weather was on the whole favourable to tea. In the district of Lakhimpur, the rainfall was somewhat in excess, and although the season began well, it closed rather early and abruptly.

4. The Commissioners of Divisions in Eastern Bengal were asked to instruct District Officers to see that the monthly reports from the Police Officers under sections 2 (*a*) and 2 (*b*) of the Bengal Famine Code were submitted to them punctually and were full and complete. They were also requested to add a paragraph on this subject to their Annual Land Revenue Administration Reports. The orders were issued too late in the year to secure the introduction of the change in all districts before its termination, but the instructions are now being generally followed and the matter has the attention of the Board. In some cases the Police are said to have been inclined to take an exaggerated view of the damage caused by the floods, but they brought to light no serious scarcity.

Monthly reports by Police Officers under sections 2 (*a*) and 2 (*b*) of the Bengal Famine Code.

5. The statistics in Appendix XIII show that the prices of the chief food-grains ruled somewhat lower during the year 1910-1911 than in 1909-1910. On the other hand, there was a slight rise in the price of salt.

Prices of food and labour.

Appendix XIII.

There was no appreciable change in the wages of labour which remain high throughout the Province, especially in the Assam Valley.

6. The year was on the whole a favourable one for the cultivator and for the labouring classes. There was some local rise in prices in those districts in which the crops were damaged by floods, which afforded the agriculturists some compensation for their losses. The labourers also appear to have done well.

Material condition of the people.

7. The public health was on the whole satisfactory, although fever was prevalent in the districts of Faridpur, Tippera, Noakhali, Dinajpur, Malda and Goalpara and cholera in Sylhet. There was an outbreak of plague in the jurisdiction of Feni in the district of Noakhali resulting in the loss of four lives. Prompt measures taken by the local officers stamped out the disease.

Public health.

8. A light crop reduced the export of jute, but the cultivators received some compensation through a rise in the price.

Trade.

The tea trade prospered in consequence of a favourable season and the maintenance of good prices. The import of Rangoon rice in the Chittagong Division decreased as a result of good harvests in the Province. The cotton trade did extremely well and there was a considerable increase in the export of rice from Noakhali, Dinajpur and Malda.

9. As noticed in the last report, the tendency of labour to move from the west to the east continues. There was a small permanent migration from Dacca to Goalpara, and many Sonthals are reported to have migrated from Jalpaiguri and the Cooch Behar State and settled in the Eastern Duars of that district. There was also a flow of Muhammadan immigrants from Mymensingh and Pabna into the district of Rangpur. The Commissioner, Assam Valley Districts, reports that two hundred and sixty-six families of Muhammadans from Dacca, Mymensingh and Cachar have settled in several mauzas of the district of Nowgong.

Emigration and Immigration.

SECTION II.

Settled Area and Demand of Land Revenue (Ordinary).

A.—Ordinary Settlements.

10. In the year under report there was an increase of about 131·7 square miles in the total revenue-paying area of the districts under the Board, with a corresponding increase of Rs. 2,97,121 in the revenue demand, the expansion amounting to 1·54 per cent. over the previous demand. The increase in area occurred almost entirely in Assam

Statistics of area and demand under different classes of estates (including variations).

Appendices 1A and 1B.

where more than 113 square miles were added to the settled area, showing an expansion of ·87 per cent. on the previous year's area. On the other hand, the bulk of the increase in revenue was contributed by Eastern Bengal, where the current demand increased by Rs. 1,77,628, or by 1·4 per cent. of the former demand. The corresponding percentage in Assam was 1·79 against 1·76 in the preceding year. The causes of the variations under the different heads are briefly explained in the following paragraphs. The incidence of revenue per square mile rose from Rs. 394·05 in 1909-1910 to Rs. 398·26 during the year. More than 50 per cent. of the revenue was contributed by the permanently-settled estates, the temporarily-settled estates contributing 37 per cent. and those held under the direct management of Government contributing 13 per cent. The incidence of revenue per acre was 6·2 annas in the permanently-settled estates and 1·5 rupees in each of the other classes.

Permanently-settled estates.

11. The fluctuations in the figures under this head have been very slight. These estates lie mainly in Eastern Bengal, the revenue from permanently-settled estates in Assam being Rs. 3,76,538 only out of a total of Rs. 98,04,484.

Estates in Eastern Bengal settled temporarily with proprietors or farmers.

12. The increase in the revenue demand under this head, which occurred mainly in Bakarganj, was the result of resettlement and progressive assessment. The large increase of area (31,036 acres) in Tippera is due in the main to an adjustment of the figures of area between temporarily-settled estates and estates held direct by Government, the statistics submitted in previous years having been found to be incorrect; the decrease of 20,956 acres in Bakarganj is due chiefly to the transfer of estates from this class to another.

Estates in Eastern Bengal held direct by Government.

13. There are 1,601 estates held direct by Government in Eastern Bengal, covering an area of 2,634 square miles and bearing a revenue of Rs. 25,16,032. The increase of Rs. 1,62,221 in the land revenue, of which Bakarganj alone contributed Rs. 1,29,133, was due to resettlements progressive settlements and the assessment of newly-cultivated lands. The decrease of 30,172 acres in Tippera has been explained in the preceding paragraph.

Temporarily-settled estates in Assam.

Appendices IB, IIB, IIC and IID.

14. The total area settled at full rates for ordinary cultivation in Assam rose from 2,644,098 acres to 2,709,083 acres and the revenue assessed thereon from Rs. 53,21,952 to Rs. 54,30,458 during the year, or, in other words, there was an increase of 2·4 per cent. in area and 2·03 per cent. in revenue, against 3·05 per cent. and 2·1 per cent., respectively, in the preceding year. The colonisation by Sonthals, Nepalese and other settlers of the Eastern Duars of Goalpara has made considerable progress.

Under special settlements there has been an increase of 1,670 acres in area and Rs. 1,697 in revenue, due to the settlement on special terms with the Managers of tea estates of lands in the vicinity of their gardens for allotment to their coolies. The scheme for the colonisation of the Nambor forest in Sibsagar makes slow progress, only 747 acres of land having been settled up to 30th June 1911, of which 633 acres have been brought under cultivation. There was no settlement of waste land along the Assam-Bengal Railway line in Nowgong during the year.

The town of Gauhati is being resurveyed, and it is hoped that the resettlement may take effect from the current year.

Settlement by time-expired coolies and other immigrants in Assam.

Appendix IID.

15. The area settled with *ex*-garden coolies increased from 181,796 acres to 191,599 acres, that is, by 5·39 per cent., and the area settled with other immigrants from 64,607 acres to 69,816 acres, or by 8·06 per cent. The rate of expansion of the area settled with *ex*-garden coolies remained almost stationary, but that of the area settled with other immigrants has fallen from 28·9 per

cent. to 8·06 per cent. The falling-off is due to the fact that in previous years the area held by Europeans for ordinary cultivation was sometimes returned in this appendix, but has this year been excluded from it. Of the 55,904 acres settled with "other" immigrants in the Assam Valley, 10,436 acres were settled with Marwaris, 6,776 acres with tea-garden employés and other persons not belonging to the cultivating class, 20,779 acres with Nepalese, 5,175 acres with the Sonthals in the Eastern Duars, and 12,738 acres with others, such as Railway coolies or Mymensingh and United Provinces cultivators. The Muhammadans who came from Mymensingh and settled at Bishnath in Darrang are said not to be doing well.

B.—Settlements for special cultivation.

Total area and land revenue.

16. The total area settled for special cultivation in Assam amounted to 1,179,734 acres with a revenue demand of Rs. 7,33,790, showing a satisfactory increase of 5,508 acres in area and Rs. 8,812 in revenue over the figures of the previous year. The increase in area occurred chiefly in the districts of Cachar, Darrang and Sibsagar. The increase in revenue was mainly due to progressive assessments.

In the district of Chittagong 5,110 acres of land have been settled for special cultivation with a revenue demand of Rs. 3,809. Of this area, 4,373 acres were settled for the cultivation of tea, rubber and cotton, but the lessees have taken up the planting of sugarcane in preference to rubber and cotton as likely to prove more profitable. About 300 acres of waste land near Hinguli Railway station were settled last year for the cultivation of castor. It is reported that the lessee has reclaimed the entire area.

Applications for settlement.

17. In the Assam Valley, 62 new applications were received during the year as against 47 in the previous year, and out of a total of 121 applications for disposal, 48 were disposed of, leaving 73 cases pending at the close of the year. The districts of Darrang, Sibsagar and Lakhimpur are responsible for the bulk of the pending cases, and the Commissioner has already been asked to take steps to dispose of them at an early date.

In Jalpaiguri, 29 new applications under the Tea Lease Rules were filed during the year and 5 remained pending from the previous year. Of the 34 applications for disposal, nine were finally disposed of, three being granted and six struck off.

SECTION III.

Collection of Land Revenue (Ordinary).

Statistics of demands, collections, remissions and balances.

Appendix IIIA.

18. The figures relating to demands and collections in Appendix IIIA do not appear to call for remark. Remissions amounted to about ·4 per cent. of the total demand as compared with ·26 per cent. in 1909-1910, but more than Rs. 24,000 were written off in two districts alone, Chittagong and Pabna, as nominal or fictitious demand, while Rs. 26,705 were remitted in Assam on account of the drought and floods of the year 1909-1910.

Permanently-settled estates.

Appendices IIIB and IIIE.

19. Out of the total demand of revenue for permanently-settled estates, Rs. 98,72,184, a balance of Rs. 1,31,120 was left outstanding at the close of the year. The whole of this amount is in process of recovery.

The whole of the current demand was collected in Goalpara, while the percentage of current collection on current demand exceeded 99 in all the remaining districts except Bakarganj and Sylhet. The deficiency in Bakarganj is due to the inability of the Court of Wards to pay up the dues of the insolvent estates of Raja Sir Sourindra Mohan Tagore, of Calcutta, within the revenue year.

The dates fixed for the payment of revenue in Sylhet operate to reduce the percentage of collections within the revenue year, and the collections in this district are much more satisfactory than the figures in the statement would appear to show.

Estates in Eastern Bengal settled temporarily with proprietors or farmers.

Appendix IIIC.

20. There is little of note in the figures in Appendix IIIC, showing demands and collections of land revenue in temporarily-settled estates in Eastern Bengal. The collections in the large Government estates in Bakarganj show marked improvement. The slight falling off in Dacca is due to the fact that some estates were settled in the latter part of the year. The remissions in Bakarganj were due to diluvian and to damage caused by the cyclone of October 1909.

Estates in Eastern Bengal held direct by Government.

Appendix IIID.

21. The figures in Appendix IIID, of the collection of revenue in estates in Eastern Bengal held by Government direct, show that there was some deterioration in collections in the past year. On the other hand, there was an increase in the demand of nearly 6·9 per cent. in the course of the year. The deficiency in collections was due to various causes, diluvion, a short jute crop, pending disputes and the completion of large settlements late in the year. Out of the total balance, however, only Rs. 23,431 are reported to be doubtful or irrecoverable.

Temporarily-settled estates in Assam.

Appendix IIIE.

22. The current demand of the temporarily-settled estates in Assam increased from Rs. 62,66,590 (exclusive of Rs. 67,700, the quit-rent of tributary mahals) in 1909-1910 to Rs. 63,86,818 during the year, while there was a satisfactory decrease of Rs. 1,34,522 in the arrear demand. Current collections showed a slight improvement, but there was a considerable falling off from 87·05 to 80·06 in the percentage of the arrear collections on the arrear demand. Taking the districts individually, the percentage of current collections reached cent. per cent., or over 99 per cent., in all districts except Sylhet, which, as explained in the last year's report, stands on a different footing from the other districts in Assam, as the main *kists* in this district fall in April and May and leave insufficient time for coercive measures before the close of the revenue year. The sum of Rs. 4,343 shown as outstanding against the district of Lakhimpur on account of arrear demand represents the unpaid balance of arrears due from the mauzadar of Gharbandi for the year 1907-1908, which under a special arrangement the mauzadar has been paying by half-yearly instalments of Rs. 1,000.

The Deputy Commissioner of Lakhimpur reports that the collections in his district were to some extent interfered with by the Abor disturbances, but the mauzadars of all districts generally paid up the revenue due from them in full before the close of the year. On the whole, the total collections in both the valleys were satisfactory, the percentage being 99·55 for the Assam Valley and 99·79 for Cachar.

In connection with the remarks made in paragraph 4 of the Government Resolution on the preceding year's report, on the subject of the indebtedness of the mauzadars, the Commissioner of the Assam Valley Districts writes as follows:—

"I made personal enquiries in the matter while on tour in the division. At Golaghat, I questioned a number of mauzadars, but not one of them admitted that he had borrowed to pay in the revenue demand of the year under report. Some of the mauzadars in Lakhimpur and in Darrang are reported to be in debt, which indebtedness may hamper their work, but, as remarked in my report for the year 1909-1910, there appears to be a growing tendency on the part of the mauzadars to expect the raiyats to come to them instead of the mauzadars' touring in the villages and visiting the raiyats during the collection season. An instance of a successful mauzadar may be quoted, *e.g.*, that

of Kharikatia-Amguri in Jorhat. This mauzadar regularly tours in his mauza and collects his revenue and pays it in methodically, the revenue being a very large amount."

Remittances of revenue by special money-order.

Appendix XVA.

23. Land revenue and cesses may be paid by special money-order throughout Eastern Bengal, but in Assam only in the district of Sylhet. The number of such orders issued during the year increased from 195,198 to 195,315, while the amount covered by them decreased from Rs. 10,00,445 to Rs. 9,58,125, as detailed in Appendix XVA. During the year under review the Board have, with the approval of Government, assented, experimentally for the present, to a proposal by the Director-General of the Post Office of India to introduce the system of transmission of acknowledgments of revenue money-orders in unregistered postal covers, instead of in registered covers. The aggregate of the remittances exceeded a lakh of rupees in each of the districts of Dacca, Mymensingh, Faridpur and Chittagong as in previous years, and in four others was more than Rs. 50,000.

Remittance of rent by special money-order.

Appendix XVB.

24. Statistics of the payment of rent by special money-order, which is permitted in the transferred districts only, are given in Appendix XVB. The total number of rent money-orders issued shows an increase from 33,706 to 40,068, while the aggregate amount remitted declined from Rs. 5,11,479 to Rs. 4,83,845. The increase in number was shared by Dacca, Mymensingh, Rajshahi, Dinajpur, Bogra and the districts of the Chittagong Division. The district of Faridpur and most of the districts of the Rajshahi Division were responsible for the decrease in amount. The total number of money-orders refused and the value of such orders has shown a steady decrease during the past four years, with a corresponding decrease in the percentage of refusals, which in 1910-1911 was 12·54 against 17·19 in the previous year. This percentage was highest (43·86) in Faridpur and lowest (1·19) in Jalpaiguri. The decrease in the percentage of refusals shows, it is hoped, a better understanding between landlords and tenants in general.

Coercive measures :—
(*a*) Operation of Sale Law in Eastern Bengal.

Appendix IVA.

25. Particulars of the proceedings under the Sale Law in Eastern Bengal are given in Appendix IVA. It will be seen that the number of defaults and the number of sales show a considerable increase, while the proportion borne by the price received to the Government revenue of the properties sold has been reduced. These properties realised only 4·5 times the revenue on them as against 9·6 times the revenue in 1909-1910. For this last variation, however, the district of Bakarganj is entirely responsible, the figures from that district showing an increase of Rs. 10,777 in the Government revenue for which the estates and shares of estates sold were responsible, and a decrease of Rs. 17,303 in the amount for which they were sold. The Commissioner will be asked whether any special cause operated to bring about this marked variation, and enquiry will be made at the same time as to the causes of the increase shown in defaults and sales in this district.

The figures in the margin give the number of defaults and sales, and the proportion of sales to defaults, in the districts in which these were most numerous. In considering these figures and those of Appendix IVA, it is desirable to separate the district of Chittagong from the others, as the enormous number of petty estates in that district differentiates the results of the Sale Law there from its effect in other parts of the province. In Chittagong the increase in defaults from 3,580 to 4,953 has not been fully explained by the Collector, and the Board will make further enquiries on the subject. The number of sales would naturally increase with the increase in defaults, but the number was further

	Defaults.	Sales.	Proportion of sales to defaults.
Chittagong	4,953	483	9·7
Mymensingh	754	33	4·4
Bakarganj	372	26	6·9
Faridpur	330	44	13·3
Dacca	220	40	18·2
Tippera	219	13	5·9
Noakhali	133	9	6·7
Rajshahi	82	7	8·5
Pabna	79	11	13·9

augmented in the past year by the orders which the Board found it necessary to pass, reducing the minimum limit for which an estate might be sold from Rs. 5 to Re. 1.

In the rest of the province, excluding Chittagong, there was no great variation in the figures of sales and defaults, the number of defaults amounting to 2,295 as against 2,041, and the number of sales to 186 as against 144 in 1909-1910.

The increase in the number of sales and of defaults in Tippera and Noakhali, and the increase in the sales in Pabna, have been explained by the local officers.

In spite of the increase in sales referred to above, the statistics indicate that the Sale Law was worked with much moderation throughout the province.

Fifty-six tenures and holdings under the direct management of Government in the district of Bakarganj, and five *jotes* in the Government estates in Jalpaiguri were sold under the provisions of Act XI of 1859. Of the tenures and holdings sold in Bakarganj, sixteen were purchased on behalf of Government for one rupee each. Three appeals were preferred to the Commissioner against these sales, all of which were unsuccessful.

The system of exempting estates from sale on the payment of a reasonable fee calculated in proportion to the default has worked well. The total amount realised as such fees aggregated Rs. 8,899. Of this sum, Rs. 3,627 were received in Chittagong and Rs. 2,700 in Bakarganj.

The rule that the sales on account of one *kist* should be held before the next *kist* day was generally followed, except in the district of Chittagong, where the arrangement of the *kist* dates makes it impossible to observe the rule very strictly.

(*b*) Certificate procedure in Eastern Bengal.

Appendix IVB.

26. Appendix IVB gives the detailed statistics of the working of the certificate procedure for the realisation of demands under various heads in the several districts of Eastern Bengal. The total number of certificates filed increased from 38,285 in 1909-1910 to 42,031 during the year under review. This increase was distributed over several districts and was due to various local causes.

The percentage of certificates disposed of to the total number for disposal fell from 77·5 in 1909-1910 to 73·6 in 1910-1911. The Board were able to congratulate the Commissioners in their last annual report on a gradual improvement in the percentage of disposals during the past four years, but this improvement has now met with a check. It is attributed to the filing of a large number of certificates just before the close of the year. Special action is being taken to reduce the number of cases which have been pending for over six months (173) in Bakarganj.

As in previous years, the greater portion of the demands were realised on the mere issue of notices or on attachment of property, and recourse was had to actual sale in only a few cases.

During the year under report seven persons were confined in the civil jail for non-payment of Court of Wards and District Board dues. In the majority of cases the dues were subsequently paid, previous failure having been due to recalcitrancy rather than poverty.

(*c*) Realisation of Government demands by imprisonment.

27. One person only in the district of Chittagong was confined in the civil jail for the non-payment of Government demands. He was released on payment of his dues.

(*d*) Measures under the Assam Land and Revenue Regulation.

Appendix IVC.

28. Details of the coercive measures for the realisation of land revenue in Assam are given in Appendix IVC. One satisfactory feature of the year was that the number of notices of demand issued remained practically stationary,

whereas in the preceding year it rose by 10,252. This was mainly due to the fact that mauzadars in the Assam Valley were permitted to issue notices of demand over their own signature, free of all charges, for process fees, by way of reminder. Another cause which contributed to the decrease lies in the fact that most of the mauzadars toured about their mauzas in connection with the Census work and were thus enabled to bring their personal influence to bear throughout. In the Surma Valley there was a remarkable decrease in the number of cases in which moveable property had to be attached. Two of the mauzadars in Cachar required no coercive measures to realize arrears. As regards the other mauzadars, the Deputy Commissioner, Cachar, remarks that they are indifferent in exercising their personal influence, and tour insufficiently in their circles for purposes of collection. In Sylhet, owing to cholera and floods, the number of notices issued for the sale of defaulting estates increased from 21,092 to 23,361, while in the Assam Valley the number of cases in which moveable property had to be attached and notices of sale issued rose from 630 to 888. For the increase in the Assam Valley the districts of Kamrup, Sibsagar and Lakhimpur are chiefly responsible. The increase in Sibsagar is partly due to the increase in the number of revenue-paying estates and partly to the failure of the raiyats to dispose of their crops owing to the poor market for them. The increase in Lakhimpur was due to the fact that the mauzadars, anticipating difficulty in collecting their revenue on account of the Abor disturbances, took recourse more freely to coercive measures.

The system of issuing attachment orders in the first instance, without issuing the notices of demand, was in force in certain mauzas of the five upper districts in the Assam Valley. The result of this measure is reported to have been satisfactory. Orders for ejectment after annulment of settlement were carried out, as in the previous year, by the Land Records staff.

Processes.

Appendix IVD.

29. Appendix IVD shows the number and the cost of service of all processes served through the Revenue Nazarat. Revised instructions were issued by the Board during the year, to ensure uniformity in the method of compilation of the Appendix; but they have not yet had time to take effect.

The total number of processes served during the year was 636,201 against 628,322 in 1909-1910, and the total amount of process fees realised was Rs. 2,77,294 against Rs. 2,88,083 in the preceding year. There was a decrease of paid processes and an increase of unpaid processes in all the Divisions of the Province. These results have been explained for the Chittagong Division, but the Commissioners of the other Divisions have given no explanations as to the variations. The Board observe that the cost of the process-serving establishment exceeds the receipts from fees in the districts of Faridpur, Rajshahi, Pabna and Nowgong. No explanation has been received of the excess expenditure in these districts. The attention of the Commissioners and District Officers concerned will be directed to these points. The amount of process fees remitted during the year shows an increase as compared with the figure for the preceding year, *viz.*, Rs. 1,797 against Rs. 1,311. The increase is due to more accurate or rather less inaccurate recording, and it is probable that the remissions are still understated in many districts. The system of process-serving through the Presidents of Union-Panchayats, under the Panchayati system introduced in 1905 in the districts of Dacca and Tippera, was continued during the year. There has been a substantial improvement in the Dacca district, but the results in Tippera are disappointing on the whole, though there has been some improvement in the outlying subdivisions. The success or failure of the system will depend chiefly on the amount and quality of the supervision it receives from superior officers.

The payment of fares for journeys made by the process-serving peons by rail and steamer out of process-serving contingencies, instead of by realisation from the parties concerned, which was being tried experimentally, has now been sanctioned by Government as a permanent measure.

SECTION IV.

Miscellaneous Land Revenue.

General (showing collections, remissions and balances).

Appendix V.

30. The particulars of collections, remissions and balances on account of miscellaneous land revenue are given in Appendix V. The total collections aggregated Rs. 4,85,151 against Rs. 6,21,462 in the previous year. The difference is chiefly due to the large arrear collections in the previous year on account of survey and settlement charges in Bakarganj, and to advance collections in that year. In regard to remissions, too, the year was rather an exceptional one, as a total sum of Rs. 15,854 (of which Rs. 10,554 fall under head "Recovery of survey and settlement charges" and Rs. 4,899 under "Fisheries") was remitted against Rs. 2,021 in the previous year. The main variations under heads "Fisheries," "Minerals," "Poll-tax," "House-tax" and "Partition fees" are briefly noticed below.

Fisheries.

31. With the solitary exception of Chittagong, receipts from fisheries in all the districts of Eastern Benga are included in the land revenue of estates.

The total collections on account of fishery revenue amounted to Rs. 2,30,732 as against Rs. 2,28,895 in the previous year. The variations in the detailed figures are not important.

Minerals.

32. The revenue from minerals comes almost entirely from the Lakhimpur district. The total receipts from coal and oil amounted to Rs. 63,579 as against Rs. 71,724 collected in the preceding year. This was due to the falling off in royalty owing to the smaller quantity of coal and oil extracted. In Chittagong a prospecting license was granted to the Burma Oil Company, and fees amounting to Rs. 918 were realised therefor as against Rs. 3,651 in the previous year.

Poll-tax.

33. Poll-tax is levied only from the Miris and Singhphos in the Lakhimpur district and from the Tipperas in Sylhet. The total collections increased from Rs. 10,636 in the previous year to Rs. 11,876 during the year under report. The increase comes almost entirely from Lakhimpur.

House-tax.

34. House-tax is levied only in the districts of Cachar, Kamrup, Nowgong, Sibsagar and Lakhimpur. The total amount collected during the year amounted to Rs. 39,644 as against Rs. 37,233 in the previous year.

Partition fees.

35. In Faridpur partition work is being carried out by the Settlement staff *pari passu* with the settlement operations in that district. On the other hand partition work has been suspended in the district of Mymensingh for the present, except in special cases, during the continuance of the survey and settlement operations. These arrangements helped to reduce the receipts, which also suffered from the fact that Rs. 29,748 were outstanding at the close of the year as against Rs. 10,199 in 1909-1910.

Recovery of survey and settlement charges.

36. The recovery of survey and settlement charges amounted to Rs. 16,859 as against Rs. 1,38,867 in the previous year. The falling off is mainly due to the completion of the survey and settlement operations in the district of Bakarganj, where the outstanding balance at the close of the year was only Rs. 11,895.

37. Action is being taken to dispose of various petty estates under sanction already obtained from Government, and the Commissioner of the Chittagong Division has under consideration the question of selling some small estates in Tippera and Noakhali, which it has been found unprofitable to manage direct.

Sale of Government lands.

Appendix VI.

38. During the year under report no land revenue was redeemed under the orders of Government, nor under the old Partition Act, VIII (B.C.) of 1876, in any of the districts of Eastern Bengal. The new Act (Bengal Act V of 1897) does not provide for the redemption of petty estates formed by partition.

Redemption of land revenue.

Nor was there any redemption of land revenue in Assam.

SECTION V.

Other Revenue Work.

39. The scheme for the reorganisation of the Khas Tahsil staff in the district of Bakarganj was given effect to during the year under report. There was no material change in the agency or in the method of management in any other districts in Eastern Bengal, but a revision in Dacca, Faridpur, Chittagong, Tippera and Noakhali is under consideration.

Estates under direct management in Eastern Bengal—

(*a*) Collecting agency.

A Sub-Deputy Collector remained on deputation to watch the interests of Government in the survey and settlement operations of Mymensingh throughout the year.

40. The amount allotted to the Board for the management and improvement of Government estates was Rs. 2,15,900, of which Rs. 1,000 was set apart for colonization work in the Nambor forest in the district of Sibsagar. The expenditure on colonization work in the Nambor forest has not been included in Appendix VIIIB. The figures in this Appendix and in Appendix VIIIA, which show the cost of management, do not appear to call for special comment.

(*b*) Grant for management and sanitary, agricultural and miscellaneous improvements.

41. Besides the amount allotted by Government for the management and improvement of Government estates, Rs. 51,024 were allowed for the work of colonization in the Bakarganj Sundarbans. Of this sum, Rs. 49,470 was spent on—

(*c*) Colonization in the Bakarganj Sundarbans.

	Rs.
(1) Establishment	11,747
(2) Contingencies	1,042
(3) Improvements	36,681
Total.....	49,470

Agricultural improvements represent most of the sum. They are the construction and maintenance of drains and embankments for the protection of land from salt water, and on these the success of the scheme largely depends.

The Colonization Officer and his staff constantly supervised these works, and the more important of them were visited by the Collector during the year.

Attempts are being made to make the settlers do the petty repairs themselves. During the year 346 new colonists were settled on 11,616 bighas of land, as compared with 296 colonists on 10,229 bighas in the preceding year.

The table below shows the financial result of the settlement of the area, of which the rent-free period expired with 1909-1910 :—

Number of settlers.	Area assessed.	Initial revenue from 1910-1911.	Ultimate revenue in 1924-1925.
	Acres.	Rs. a. p.	Rs. a. p.
74	395·05	534 6 0	1,463 15 0

Assessments are made after surveying the area cleared.

The settlers are reported to be extending clearance to areas which will be assessed hereafter.

The year was favourable and an excellent paddy crop was reaped by the old settlers.

During the cultivating season Rs. 2,525 were advanced to settlers and Rs. 2,864 were realised out of old advances.

Reclamation is making fair progress in all the area colonised, except at Chhota Nishanbaria where man-eating tigers have caused a panic.

Weather conditions in the Sundarbans were on the whole favourable, but there was an outbreak of cholera at Kalamegha, which caused a few deaths.

Reserved forest in the Sundarbans.

Rupees 21,908 were realised by the sale of forest produce by the Colonization Officer and his ordinary tahsil staff. Two foresters have been appointed since May last and the income from this source is expected to expand.

A portion of the forest which is not likely to be taken up for settlement in the near future has been declared a protected forest under Chapter IV of the Forest Act.

(*d*) Education.

42. Both the Dacca and the Chittagong Divisions show increases in the number of schools and pupils on these estates and spent Rs. 10,868 and Rs. 9,639, respectively, for the up-keep of those schools,

In the Jalpaiguri district the number of schools and pupils in Government estates rose from 142 and 4,070 to 157 and 4,329, respectively, and a sum of Rs. 6,064 was spent on Education.

Two girls' schools were opened recently in the Jaipur Government estates in Bogra.

Irrigation, drainage and embankments.

Dacca Division.

43. No important irrigation, drainage or embankment works were undertaken during the year in any of the Divisions. The District Board of Dacca spent Rs. 2,535 for deepening the mouth of the Paniakhal, and Rs. 6,047 for the embankment of the 7th, 8th and part of the 9th mile of the Sreepur-Muthiajuri road. Dredging operations were carried on in the recently opened canal (Bhil route) in the Gopalganj subdivision of the district of Faridpur, between the rivers Kumar and Madhumati. A sum of Rs. 29,226 was spent in the Sundarbans portion of the Bakarganj district on the construction of small embankments, mainly to protect the lands from damage by salt water.

Chittagong Division.

44. The following action was taken during the year in respect of four out of the six embankments maintained by Government in the district of Chittagong :—(*a*) Rs. 8,044 were spent for repairs to the embankment round the island of Kutubdia; (*b*) Rs. 525 were spent on the up-keep of the Gomatali and Pok-khali embankments in the Cox's Bazar circle; (*c*) a sum of Rs. 350 was expended for earthwork and turfing of the Gohira and Saranga embankments in the Patya circle; and (*d*) a sum of Rs. 5,758 was spent for general repairs to the embankments in Baffskhali, including the protective works in the damaged portion

of the Baraghona and Gandamara embankments. The embankment in Tippera on both sides of the river Gumti, which is maintained by the riparian zamindars under the general direction of the District Engineer, was breached near Syampur, and this caused considerable damage to the standing crops. Mr. C. A. White, Superintending Engineer, inspected the embankment and made suggestions for its future maintenance which are still under consideration.

Rajshahi Division.

45. The District Board of the Rajshahi district spent a small amount in repairing drainage channels which take the flood water ofthe Padma to villages lying at a distance. The project of re-excavating two drainage channels in Dinajpur referred to in the last year's report and the proposal for the improvement of the sanitation of the Rangpur town are still under consideration. In Jalpaiguri Rs. 48 only were spent on repairs to the Khariar-bunder irrigation channel in the Maynaguri tahsil, and a sum of Rs. 321 was spent on repairs to drains in the Alipur subdivision. The proposal for the improvement of the drainage of the Rangpur town is still pending. The embankment along the right bank of the river Mahananda, from Kutubpur to Mahespur in Malda, was maintained at an expenditure of Rs. 279.

Surma Valley Districts.

46. No work under this head was undertaken in this valley during the year.

Assam Valley Districts.

47. In Kamrup the reclamation of land damaged by the earthquake continued. Considerable progress in the work of reclamation is reported to be due to the opening of the Moamarijan and other drainage channels. Estimates for repairing the Kharoi *bund* in the Gohpur mauza in Darrang have been prepared, but have not yet been sanctioned. In Sibsagar where there are 9 embankments, it is reported that the river Brahmaputra has suddenly set towards the Brahmaputra *bund*, which extends for over 14 miles, and is fast eroding it between the 12th and 14th miles. Plans and estimates for constructing a new loop line from mile 11 are under preparation. The question of strengthening the Bhogdoi, Dikhu, Desang and Dehing *bunds* is under the consideration of the Superintending Engineer. The Dikrang *bund* in the district of Lakhimpur requires further repairs.

Land Registration—
(*a*) Under Act VII (B. C.) of 1876.

Appendix IXA.

48. Appendix IXA gives particulars of the intermediate registrations effected in Eastern Bengal under Act VII (B. C.) of 1876 during the year under report. By far the greatest proportion of the proceedings under the Act are conducted in the district of Chittagong, where a separate establishment is maintained for Land Registration work, which in the other districts is carried out by the ordinary Collectorate staff. In this district alone there are no fewer than 384,300 proprietary interests entered in the registers, as compared with 295,030 in all the other districts of Eastern Bengal taken together.

The number of applications for registration filed during the year was 25,629, a decrease of 1,862, which occurred almost entirely in Chittagong, where the number of applications was swelled in the year 1909-1910 owing to the initiation of a reform in the method of checking the transfer reports received by the Collector from the Registration offices and Civil courts. The percentage of cases disposed of was 81·7 against 82·9. An enquiry will be made by the Board as to this decrease. It is satisfactory to note that in the district of Dacca the pending cases have been reduced from 1,177 to 629.

The actual number of applications granted amounted to 24,636 or 3·67 per cent. on the total number of interests registered, as compared with 4·1. The percentage was highest (9·44) in Rajshahi, and lowest (2·03) in Chittagong.

The expenditure on Land Registration work amounted to Rs. 16,118, of which Rs. 14,834 were incurred in Chittagong. The registration fees realised amounted to Rs. 629 as against Rs. 1,151 in 1909-1910.

No case of fraudulent registration was brought to light during the year under report.

The registers prescribed under the Act are reported to be generally in good condition.

Only four petitions for revision were presented to the Board under section 85 of the Act.

The question of the prescription of a uniform system of notation for the record of proprietors' interests in Register D was discussed at the Conference of Commissioners held at Shillong, and, with the approval of Government, the Board have issued orders to the effect that after the completion of a general survey and settlement of a district, the Settlement Officer, after consulting the Collector and the Commissioner, should adopt a uniform system of notation throughout the district, which should then be introduced in the Collectorate registers. Where, however, two systems of notation are found to be recorded in the present register in one estate, the Collector should take steps to correct the register without delay.

(*b*) Under the Assam Land and Revenue Regulation.

Appendix IXB.

49. Appendix IXB shows the result of changes amongst proprietors and landholders effected by registration and mutation under the Assam Land and Revenue Regulation. The number of cases disposed of locally by summary procedure rose from 33,228 to 39,868. The highest increase occurred in the district of Cachar, where the matter received the special attention of the Deputy Commissioner.

No figures are given for the district of Lakhimpur which is at present under resettlement. The percentage of cases disposed of in court and locally on the total number of estates liable to mutation was 7·54 against 6·93 for the preceding year and 6·17 for the year 1908-1909.

With the increase in the number of cases disposed of locally by the summary procedure, there has been, as was anticipated last year, a proportionate falling off (from 11,108 to 9,093) in the number of applications dealt with in court.

Separate accounts of land revenue payments opened for shares under Acts XI of 1859 and VII (B. C.) of 1876.

Appendix IXC.

50. Appendix IXC shows the separate accounts opened (724) and closed (162) during the year in the districts of Eastern Bengal. The average for the preceding four years was 898 opened and 190 closed. By the close of the year 35,028 separate accounts paid an aggregate land revenue of Rs. 28,31,795, Rs. 29,145 being for shares in joint estates held in common tenancy (section 10, Act XI of 1859), Rs. 949 for shares representing specific portions of lands in estates (section 11, Act XI of 1859), and Rs. 4,934 for shares consisting of undivided interests in specific lands [section 70, Act VII (B. C.), 1876].

Registration of tenures under Act XI of 1859.

Appendix IXD.

51. Statistics of the registration of tenures for protection against annulment, in case of the sale of the parent estate for arrears of revenue under Act XI of 1859, are given in Appendix IXD. Thirty-eight tenures were registered during the year, bringing the total number protected at the end of the year up to 3,501.

Partitions.

Appendix X.

(*a*) Eastern Bengal.

52. In Eastern Bengal the institutions during the year numbered 20, and out of a total of 168 for disposal, only 36 cases were disposed of, of which 8 were struck off for various reasons. This unsatisfactory result is mainly due to the provisions of the Partition Act, and the question of accelerating these proceedings is under the consideration of the Board.

The scheme sanctioned by Government for the disposal of partition cases by the officers of the Settlement Department, during the course of general Survey and Settlement operations, is being tried in the district of Faridpur, where all the 22 pending cases were made over to the Settlement Department at the beginning of the year.

Owing to the amount of partition work pending in the district of Tippera, proposals have been made for the deputation of a whole-time officer, and for the creation of a Partition Fund, and these are now under consideration.

In the Rajshahi Division only one case (in Pabna) was finally determined out of 19, of which 5 were instituted during the year.

The incidence of the cost per acre of partitions completed during the year, as compared with that of the preceding year, was Re. 0-14-2 against Re. 1-8-3 in Dacca and Re. 0-10-1 against Re. 0-11-9 in Mymensingh.

53. Partitions are dealt with in the old Province of Assam under Chapter VI of the Assam Land and Revenue Regulation. Omitting summary partitions effected on the spot under Rule 203 of the Assam Land Records Manual, there were 208 applications for partition made during the year against 243 in the previous year.

(b) Assam.

There was an improvement in the percentage of disposals, and of the 152 cases pending in the Assam Valley, the district of Kamrup alone is responsible for 111. Under the orders of the Board special efforts are now being made in this district to dispose of the long pending cases.

54. Proceedings under the Land Acquisition Act, I of 1894, in respect of 1,571 acres, *viz.*, 1,045 acres in the Eastern Bengal districts and 526 acres in the Assam districts, were confirmed by the Board during the year under report, at a total cost of Rs. 5,13,102, as compared with 1,729 acres, *viz.*, 821 acres in Eastern Bengal and 908 acres in Assam, at a total cost of Rs. 8,81,852 during the preceding year. Of the total expenditure incurred (Rs. 5,13,102), over $2\frac{1}{2}$ lakhs was on account of Government, a little over half a lakh for Municipalities and nearly a lakh each for District or Local Boards and Railways. The average cost per acre acquired amounts to Rs. 326 against Rs. 510 in the preceding year, the decrease being attributable to the acquisition of a smaller proportion of town lands, especially in Dacca and Chittagong.

Land Acquisition.

Appendix XI.

In addition to the above, an area of 935 acres was acquired for temporary occupation under section 35 of the Act, at a cost of Rs. 15,360, as compared with 1,694 acres, at a cost of Rs. 14,918 in the preceding year.

Temporary occupation.

55. Lands for the following important projects were under acquisition during the year :—

Projects dealt with.

(1) Establishment of a Rifle Range and Cantonment at Dacca; (2) Bhairab-Tangi Branch Railway project in Dacca and Mymensingh; (3) Singhjani-Fulchari extension of the Eastern Bengal State Railway in Mymensingh; (4) Railway Despatch ghats at Faridpur; (5) Improvement of the Port of Chittagong; (6) Sara Bridge project in Pabna; and (7) Talap to Saikhowa line and Chalkhowa station in Lakhimpur.

56. The first three projects in the above list were the most important new ones for which instructions were received during the year.

Projects in hand.

Besides the above, notifications under section 4 of Act I of 1894 have been published in respect of the projects named below:—

(1) construction of a Railway line from Bhairab Bazar to Netrakona;
(2) construction of a Railway line from Khulna to Barisal; and
(3) construction of a Light Railway from Silghat to Nowgong.

Employment of Special Land Acquisition Officers.

57. The special officer, who was appointed from this province, as explained in the last report, to take charge of the Sara Bridge project in Pabna, was employed in the work throughout the year. The services of the special officer employed in connection with the acquisition of land for the Rangia-Tangla extension of the Eastern Bengal State Railway, were retained till the 14th November 1910. Two other special Land Acquisition Deputy Collectors were appointed during the year under report: one of them was placed in charge of the Bhairab-Tangi Branch Railway project from the 1st December 1910; and the other, who was put in charge of the Singhjani-Fulchari Railway project, joined on the 25th March 1911.

Disposal of Railway surplus lands.

58. In Faridpur 83·516 acres of land, relinquished by the Eastern Bengal State Railway on condition that it should be restored to them whenever required, have been leased out to certain persons on terms of temporary occupation. In Bogra an area of 37·35 poles of land, relinquished by the Northern Section of the Eastern Bengal State Railway, was sold during the year, revenue free, for Rs. 66. In Malda 27 acres, 2 roods and 7·606 poles of land, relinquished by the Katihar-Godagari Railway, were sold for Rs. 1,115. On the subject of the institution of civil suits for the ejectment of certain lease-holders of surplus Railway lands in Noakhali, mentioned in the last report, the Commissioner states that a draft plaint has been approved by the Legal Remembrancer since the close of the year and that a fresh notice, approved by him, has been served on the lease-holders. This matter is making slow progress and the Commissioner will be requested to see that there is no further delay which can be avoided.

Pending cases.

59. The proceedings in respect of 352 projects, with an area of 3,834 acres (as detailed in the margin), were pending on the 30th June 1911, as compared with 298 projects with an area of 3,357 acres in the preceding year. Eastern Bengal was responsible for 206 projects comprising an area of 2,613 acres, as co mpared with 218 projects with an area of 2,685 acres, and Assam for 146 projects comprising an area of 1,221 acres, as compared with 80 projects with an area of 672 acres in the preceding year. Of these pending projects, the proportion of those which are of more than two years' standing was 18·75 per cent. against 20·47 per cent. in the preceding year. References to the Civil Courts are, as usual, responsible for the delay in most of the long pending cases.

No.	Area, in acres.	
38	1,055	over 3 years.
28	514	over 2 years.
48	706	over 1 year.
170	1,117	over 6 months.
68	412	below 6 months.
352	3,834	

Resumption.

60. In the district of Tippera an area of 3 acres 1 rood and 14 poles of land was resumed for the construction of station offices, etc., of the Assam-Bengal Railway.

Under the conditions of the Duars leases, 287 acres of land were resumed in Jalpaiguri for public purposes, at a total cost of Rs. 15,098.

Loans.

Appendix XIVA.

61. The total amount of loans outstanding was reduced during the year from Rs. 7,55,427 to Rs. 5,18,373.

(*a*) Loans under the Land Improvement Loans Act.

Appendix XIVB.

62. Loans amounting to Rs. 6,000 only were advanced during the year under this Act. Of the total debit of Rs. 49,353 (principal), only Rs. 14,403 were repayable during the year, of which Rs. 10,780 were realised, leaving a balance of Rs. 38,573 outstanding at the close of the year, of which Rs. 3,511

were overdue. Of Rs. 3,094 due on account of interest, current and arrear Rs. 2,318 were realised, leaving a balance of Rs. 776 which includes a sum of Rs. 66 suspended.

(*b*) Loans under the Agriculturists' Loans Act.

Appendix XIVC.

63. The amount advanced during the year was Rs. 1,07,596 as against Rs. 1,79,705 in 1909-1910. The outstanding balance of the previous year added to the advances made during the year made up a total debit of Rs. 8,19,670, out of which Rs. 5,01,421 were recoverable within the year. The total collections amounted to Rs. 3,39,656, of which Rs. 4,221 were advance and Rs. 19 excess payments. Rupees 214 were remitted. The balance recoverable in future years was Rs. 4,79,800 including Rs. 2,019 under suspension, of which Rs. 1,63,772 were overdue at the end of the year. Of Rs. 60,201 due on account of interest, Rs. 41,039 were collected (including Rs. 386 advance collections and Rs. 3 in excess) and Rs. 40 remitted, leaving a balance of Rs. 19,511, which includes Rs. 151 under suspension.

The collections in several districts were far from satisfactory ; and the attention of the Commissioners and District Officers will be drawn to the necessity of closer supervision over recoveries of the principal and interest of these loans. The Board regret that serious irregularities, which are still under enquiry, were brought to notice in connection with the recoveries in the Bakarganj district.

Co-operative Credit Societies.

64. A separate report regarding Co-operative Societies has been submitted to Government, and the results need only be briefly reviewed here. This report is concerned mainly with rural societies, to which agriculturists belong. Their number increased from 330 to 501 during the year, membership from 12,925 to 18,304, and capital from Rs. 5,41,598 to Rs. 7,94,094 ; and the loans issued amounted to Rs. 4,22,174, as compared with Rs. 2,67,950 in 1909-1910, Rs. 1,72,230 being issued for repayment of old debts at higher rates of interest. There has also been satisfactory expansion in the number, capital and membership of the central and urban banks, with which this report is concerned so far as they finance the rural banks, loans to the amount of Rs. 1,83,692 being outstanding from the rural to the urban societies at the close of the year. The record of the year is one of satisfactory progress and of advance of public confidence in the co-operative system. The movement has at present only touched a minute proportion of the population, but its benefits have been much appreciated where societies have been formed, and applications for the formation of new societies come in faster than they can be complied with. The development of the movement is at present limited by the inadequacy of the supervising staff.

General revenue work of the Land Records staff.

(*a*) Eastern Bengal.

65. No separate Land Records staff has yet been entertained for the maintenance of Land Records in private estates in Eastern Bengal. The regular establishments of Government and wards' estates carry out the mutation of raiyati interests and maintain settlement records in the Government estates and in temporarily-settled estates under the direct management of Government or the Court of Wards. It is hoped that improvement in the maintenance of records will result from the recent reorganisation of the Khas Mahal staff in Bakarganj. Special attention was paid during the year to this subject in the Tippera district and proposals for new working rules are under the consideration of the local officers.

(*b*) Assam.

66. In Assam, the District Land Records staff maintains the land records in the temporarily-settled tracts and is also responsible for the annual settlements and for some miscellaneous survey and settlement work in areas under special forms of settlement. In the district of Lakhimpur, where resettlement operations are going on, the staff was placed under the Settlement Officer throughout the year. The Commissioners report favourably as to the work of this establishment during the year.

67. In none of the districts of Eastern Bengal and of the Surma Valley are there any village headmen employed on revenue work. In Sylhet, however, the poll-tax levied on *jhum* cultivation is realised by the headmen of Tippera villages. The Collector of Bakarganj reports that the question of organising a body of village headmen for the Sundarbans tract is still under consideration.

Village headmen.

The village headmen, or *gaonburas*, in the Assam Valley are reported to have worked well during the year. Twenty-four of them were recommended for rewards for good work in the course of the year.

SECTION VI.

RENT.

Working of the Bengal Tenancy Act.

68. The Bengal Tenancy Act continued to govern the relations between landlords and tenants in the Eastern Bengal districts except the Chittagong Hill Tracts, where it is not in force.

The Bengal Tenancy Act.

Some modifications of the rules under the Act, issued under notification No. 2304R., dated the 24th August 1909, were made during the year, and the modified rules were issued under Notification No. 1523R. of the 10th July 1911.

The provisions of sections 56 and 57 of the Act are not yet strictly obeyed by the zamindars and their agents everywhere, and proceedings under section 58 were intsituted in 13 cases in the Dacca Division, some of which ended in conviction and fine.

Doubts having arisen as to the exact meaning of section 58 (3) and in particular as to the exact interpretation of the words " such landlord or agent, as the case may be, shall be liable to fine, " a reference was made to the Advocate General who advised that any failure by the landlord to perform the statutory duty of forthwith giving a fully-signed receipt renders him primarily liable to the penalty under section 58 (3), but that such liability will be displaced in cases where joint landlords have authorised a common agent under section 188 to act for them. In such cases if the agent fails to give a receipt for rent, he and not the landlords will be liable to the fine.

69. The figures in this Appendix call for little comment from the Board. Better registration caused an increase in the number of voluntary transfers and transfers by succession. Almost all the applications for the registration of improvements came from the colonisation area in the Bakarganj district.

Working of the Bengal Tenancy Act under Revenue Officers.

Appendix XIIA.

70. There has been an appreciable improvement in the payment of landlords' fees during the year, as compared with the previous year's, the percentages being :—

Receipts and payments of landlords' fees.

Appendix XIIB.

In 1910-1911	21·61
In 1909-1910	10·61
In 1908-1909	8·6
In 1907-1908	8·6

This is due to the new procedure prescribed by the Amendment Act of 1908 of sending fees by money-order.

SECTION VII.

GENERAL.

71. Appendix VII gives details of alienations and assignments of land revenue for each district of Assam. The variations in the figures are of small importance. The assignment to *gaonburas* or village headmen in Kamrup increased by Rs. 124, in consequence of the

Alienations and assignments of land revenue.

Appendix VII.

appointment of new *gaonburas*. The increase of 247 acres in area and of Rs. 212 in revenue, under the head *Nisf-khiraj* in Kamrup, was due to the restoration to the Dirgheswari temple of the two estates resigned owing to damages inflicted by the earthquake of 1897.

Racords. General.

72. The examination of the records system, commenced in 1909-1910 with a view to the destruction of papers unnecessarily marked for permanent preservation, and the better arrangement of papers to be permanently preserved, was continued during the year under report.

Action was taken in Bakarganj to re-copy *thakbust* maps damaged by constant handling, and to prepare indexes of rent suits for the years 1837—1870 in which documents were filed by the parties but not taken back. The arrangement of records and the rewriting of the shelf register No. 41 according to tauzi numbers was taken up at Faridpur, and the rewriting of the register has been completed in respect of 4,996 estates out of 6,037 estates. The estates' papers at Rangpur were shelved according to the above arrangement. Action was taken in Chittagong to rebind the volumes of *khatians* of the cadastral survey and to mount old important maps on cloth; in Tippera to arrange the land acquisition records of the Assam-Bengal Railway and to enter them up in the shelf register; and in Noakhali to copy the old Settlement *Ruedads* of parganas Danda, Sundip, etc., and the Settlement *Dowls* of pargana Amirabad. Action was also taken in Tippera to translate three Persian *Sanad* registers into Bengali and to rewrite the old *Nolpaynama* register (showing the length of the rod in the pargana); and in Noakhali to bind old *Calcutta* and *India Gazettes* and other registers.

English correspondence.

73. The classification and periodic destruction of B and C papers are reported to have received due attention. A quinquennial revision of the English correspondence in Noakhali and certain vernacular records in Chittagong was carried out during the year; 923 bundles of rent suit records, which were excepted from the general destruction of such records carried out in 1899 under the orders of the Board of Revenue, Lower Provinces, because they related to titles to land, or some interest in land, or the rate of rent or questions relating to the variations of the rents of tenants, were destroyed in the year under report with the approval of the Board, after the lapse of three months from the date of publication of the notice notifying destruction.

Record-room buildings.

74. No progress has been made with the scheme for building a new record-room at Bakarganj. The settlement records which have been taken over by the Collector, have, in the absence of space in the record-room, been stored in the central room of the Road Cess building, at some inconvenience to that Department. It is therefore desirable that the new Record building should be constructed as speedily as possible. The proposal for the enlargement and reconstruction of the Chittagong record-room is still under consideration. A new rack has been provided in the Tippera record-room and some improvements were made in the old racks for keeping the bundles upright. The new record-room in the office building at Jalpaiguri will soon be ready for occupation.

Inspection of record-rooms.

75. All the Collectors and Deputy Commissioners in the Chittagong Division and the Assam and Surma Valleys inspected their record-rooms. The reports of the Dacca and Rajshahi Divisions do not state what inspection work was done by Heads, of Districts; this information should be given in future. Babu Barada Kanta Ganguly, Inspector of Offices and Record-rooms, made a thorough inspection of all the record-rooms in the Dacca Division and of those at Dinajpur and Silchar. He has made many useful suggestions, some of which are under consideration, and some are being acted on. After inspecting some more record-rooms he will favour the Board with a report on the general question mentioned at the beginning of paragraph 72. Captain Hirst, Director of

Surveys, made a careful examination of the method of arrangement and storage of maps in the Dhubri record-room, with a view to their better preservation, and has made valuable suggestions which are now under consideration. The Commissioners of Dacca, Chittagong, Rajshahi, Surma Valley and Hill Districts and Assam Valley Districts inspected the Sadr record-rooms, respectively, at Mymensingh and Faridpur, Tippera and Noakhali, Jalpaiguri, Sylhet and Silchar, and Dhubri, Gauhati, Tezpur, Nowgong and Dibrugarh, besides the record-rooms or arrangements at some subdivisional stations. The Hon'ble Mr. P. G. Melitus, C.I.E., Member in charge, visited the Sadr record-rooms at Dacca, Faridpur, Tippera, Sylhet and Silchar in the course of his tours during the year. The Hon'ble Mr. P. C. Lyon, C.S.I., Second Member, inspected the record-room at Rangpur in the course of his inspection of Land Registration work ; The Hon'ble Mr. H. LeMesurier, C.S.I., C.I.E., Officiating Second Member, inspected the record-room of the Pabna Collectorate.

Treasure Trove Act, VI of 1878.

76. There were four cases under the Act during the year :—

(1) In Rangpur five stands of metal images said to be of Basudev, Indra and Basumati, with figures on three of the stands, were found in a jungle. The case has not yet been disposed of.

(2) In Pabna gold and silver ornaments worth about Rs. 123, found by a cultivator while ploughing, were, in the absence of claimants after notice, made over to the finder under section 11 of the Act.

(3) Rupees 26-11-3 in current coins unearthed by a servant of the Reserve Police Sub-Inspector, Cachar, were also, after notice, given to the finder.

(4) In the district of Nowgong one Tahman Katani of the Uttarkhola mauza found twelve silver coins and three pieces of gold while digging the foundation of a new plinth of his house. Of the coins, eight were issued by Firoz Shah, three by Bahadur Shah and the other by Ahmad Shah. The matter is under enquiry.

The treasure found in the district of Dacca last year was declared ownerless, and as the finder had not given due notice, the coins vested in His Majesty under section 20 of the Act. Government, however, was pleased to retain fifty-one coins and to order the delivery of the balance to the finder as a matter of grace. The total intrinsic value of the coins retained by Government is reported to be Rs. 31-14-0.

Personnel.

(*a*) Of the Board.

77. The office of First Member of the Board was held throughout the year by the Hon'ble Mr. P. G. Melitus, C.I.E. The Hon'ble Mr. P. C. Lyon, C.S.I., held the office of Second Member from the 1st July to the 21st November 1910, when he proceeded on leave. Mr. Melitus had charge of the duties of Second Member also from the afternoon of the 21st November to the 12th December 1910. The Hon'ble Mr. H. LeMesurier, C.S.I., C.I.E., officiated as Second Member from the 12th December 1910 to the end of the year.

(*b*) Of Commissioners.

78. The following Commissioners held office during the year :—

Dacca Division.—The Hon'ble Mr. W. J. Reid was in charge from the 1st July 1910 to the 23rd March 1911, when he was relieved by Mr. A. Marr, who officiated from the 24th to the 29th March 1911. The Hon'ble Mr. N. Bonham-Carter was in charge during the remaining part of the year.

Chittagong Division.—The Hon'ble Mr. F. N. Fischer was in charge throughout the year, except from the 23rd April to the 23rd May 1911, when he was on leave, and Mr. A. H. Clayton officiated as Commissioner.

Rajshahi Division.—The Hon'ble Mr. F. J. Monahan was in charge from the 1st to the 7th July 1910, and again from the 21st September 1910 to the 30th June 1911. During his absence from the 8th July to the 20th September 1910, Mr. D. H. Lees officiated as Commissioner of the Division.

Surma Valley and Hill Districts.—The Hon'ble Mr. J. C. Arbuthnott, C.I.E., throughout the year.

Assam Valley Districts.—The Hon'ble Lieutenant-Colonel P. R. T. Gurdon, I. A., throughout the year.

Tours and inspections with special reference to districts and subdivisional offices, treasuries and sub-treasuries.
(*a*) Of Members of the Board.

79. The Hon'ble Mr. P. G. Melitus, C.I.E., was on tour for about 140 days during the year and visited the Sadr and some Subdivisional stations and outlying places of all districts in the Surma Valley, Chittagong and Dacca Divisions and parts of the Rajshahi and Assam Valley Divisions, either on general inspection or for special business or enquiries. Among other matters the decentralization of revenue functions to Subdivisional Officers and the introduction of the circle and improvement of the village systems in Eastern Bengal were dealt with during his cold-weather tour. His long absences from headquarters caused some inconvenience to, and delay in, office work ; but this is a disadvantage inseparable from, and more than compensated by the advantages of, much touring.

80. The Hon'ble Mr. P. C. Lyon, C.S.I., was on tour for about 28 days. in the course of which he visited the district headquarters of Chittagong, Mymensingh, Sylhet and Rangpur. His departure from Dacca on tour in the rains was unfortunately delayed by illness.

The Hon'ble Mr. LeMesurier, C.S.I., C.I.E., was on tour for 19 days During this period he visited Jagannathganj, Dhubri, Gauhati, Barisal, Goalundo and Pabna. His duties as an Additional Member of the Legislative Council of the Governor General in Calcutta precluded his undertaking any extensive touring during the cold weather.

(*b*) Of Commissioners.

81. The Commissioner of the Dacca Division spent 78 days on tour and inspected a fair proportion of the district and subdivisional offices in his Division. The Board are glad to note the gradual extension of the annual tours of this officer. There is no Division in which such tours are more valuable.

The Commissioner of the Chittagong Division was on tour for 98 days and inspected all the collectorate and subdivisional offices within his jurisdiction. He also visited the islands of Noakhali and the islands of Kutubdia and made a 16 days' tour through the Chittagong Hill Tracts.

The tours of the Commissioner of Rajshahi extended over 130 days. The Hon'ble Mr. Monahan spent 104 days on tour, in the course of which he visited three district headquarters and five subdivisions. He also inspected a large number of jails, schools, tahsils, dispensaries and other offices and institutions. Mr. Lees, when officiating for Mr. Monahan, spent 26 days on tour and visited Dinajpur, Rangpur, Rajshahi and Pabna.

Excluding tours in the Hill districts, the Hon'ble Mr. Arbuthnott spent 77 days on tour in Sylhet and Cachar against 53 days in the preceding year. He inspected all the branches of the Deputy Commissioner's office at Sylhet and revenue and other offices at South Sylhet, Habiganj, Sunamganj and Karimganj.

In the Assam Valley, Lieutenant-Colonel Gurdon was on tour for 170 days. He inspected all district offices and all subdivisional offices except Barpeta.

(*c*) Of District Officers.

82. In the Dacca Division the tours of the District Officers were adequate, except in the Dacca district. The Board are aware of the special circumstances that interfere with the touring of the Collector of Dacca but trust that he may find it possible to spend a longer period in the interior of his district during the current year. The Board note with satisfaction that the Additional and Assistant Magistrates of Bakarganj were out on tour for 71 days.

The tours of the District Officers in the Chittagong Division were also sufficient, although changes of *personnel* in the Chittagong district somewhat restricted the period spent on tour in that district.

In the Rajshahi Division the tours of the Collector of Dinajpur were inadequate and the deficiency has not been satisfactorily explained. In both Malda and Rangpur the Collectors spent a considerable proportion of the year in camp.

In the Surma Valley the Deputy Commissioners of Cachar and Sylhet made extensive tours, in the course of which they inspected the subdivisional offices and tea gardens under their control.

In the Assam Valley all the District Officers did a sufficient amount of touring and inspected their own offices and those in their subdivisions.

Merits of officers.

83. The Board desire to acknowledge with thanks the valuable assistance given by the Commissioners of Divisions in the administration of the Land Revenue Department. The following officers have earned special mention for good work done during the year:—

Officers of the Indian Civil Service.

Mr. J. E. Webster.	Mr. C. Tindall.
„ A. W. Botham.	„ W. A. Cosgrave.
„ J. Hezlett.	„ J. A. Woodhead.
„ A. Marr.	„ H. M. Cowan.

Mr. A. Phillipson.

Officers of the Provincial Civil Service.

4th-grade Deputy Collectors ...	Babu Abhaya Shankar Guha. „ Annada Charan Gupta.
5th-grade Deputy Collectors ...	Maulvi Abul Muzaffar Ahmad. Maulvi Afzal-ur-Rahman.
6th-grade Deputy Collectors ...	Srijut Radha Nath Phukan. Maulvi Ata-ur-Rahman.
7th-grade Deputy Collectors ...	Maulvi Naziruddin Ahmad. Babu Naba Gopal Chaki.

Officers of the Subordinate Executive Service.

2nd-grade Sub-Deputy Collectors	Babu Dwarka Nath Chaudhuri. „ Braja Nath Ray.
3rd-grade Sub-Deputy Collectors	Babu Tarini Charan Nandi. Maulvi Azimuddin Ahmad. Rai Sahib Betha Ram Sharma. Babu Abani Kumar Sen. „ Brajabandhu Bhaumik. „ Ananda Bihari Mitra. „ Rajendra Lal Acharji.
5th-grade Sub-Deputy Collectors	Babu Tonu Singh. Maulvi Hafizuddin Khan.

I have the honour to be,

SIR,

Your most obedient Servant,

F. P. DIXON,
Secretary.

E. B. & A. G. P. (B. of Rev.) No. 24—500—8-1-1912.

GOVERNMENT RESOLUTION ON THE LAND REVENUE ADMINISTRATION REPORT FOR 1910-1911.

Nil.

SUMMARY OF THE STATEMENTS FOR THE HILL DISTRICTS IN ASSAM.

Ordinary Land Revenue.—Appendix IIIA shows the demand, collections, remissions and balances of ordinary land revenue in the four hill districts of Assam, *viz.*, the Naga Hills, the Khasi and Jaintia Hills, the Garo Hills and the Lushai Hills. The total number of estates settled in those districts (including one which is permanently settled) rose from 11,632 to 12,138. The total demand for the year, practically the whole of which accrues in the Garo and Khasi and Jainta Hills, was Rs. 48,480, Rs. 45,070 being the current and Rs. 3,410 the arrear demand, against Rs. 43,733 and Rs. 3,443, respectively, in the preceding year.

The total collections, current and arrear, amounted to Rs. 47,560 against Rs. 43,770 in the preceding year. The outstanding balance was Rs. 901, of which Rs. 899 was due from the temporarily-settled estates in the Garo Hills.

2. Miscellaneous Revenue.—Appendix V gives detailed information with regard to the miscellaneous revenue of the Hill Districts.

The total demand, current and arrear, was Rs. 2,36,711. Rupees 2,33,255 were collected and Rs. 929 remitted leaving a balance of Rs. 2,527. Almost the whole of the balance was due from the Khasi and Jaintia Hills District.
